Pay in USD, LBP or both

Mix currencies in one payment. Change is shown in both, at the day's rate.

The image shows a screenshot of the Leap POS (Point of Sale) interface. The top bar displays the application name "Leap POS" and the current location and shift information: "Hamra - Marketing till HAM - Shift #1 since 18:10". The interface is divided into several sections. On the left, there is a vertical sidebar with icons for "Sell" (F1), "Returns" (F11), "Held" (F7), "Cash" (F6), "Close" (F5), "More" (F3), and "Lock" (F12). The main area is titled "Payment" and shows the "Amount due - #HAM-MKT1-000002" as "\$16.25" (1,455,000 LBP). Below this, a "Change" section shows "\$1.57" (\$1 + 50,000 LBP, with \$0.01 kept as rounding). The "Payments" section lists "Cash USD \$10.00" and "Cash LBP = \$7.82 700,000 LBP". The bottom of the main area features a large green button labeled "Complete sale" (F10). On the right, there are tabs for "Cash", "Card", "On account", and "Wallet". The "Cash" tab is active, showing a numeric keypad for "USD US dollars" and "LBP Lebanese pounds". The "USD" keypad has buttons for \$1, \$5, \$10 (selected), \$20, \$50, and \$100, along with an "Exact" button and a "X" button. The "LBP" keypad has buttons for 5,000, 10,000, 20,000, 50,000, and 100,000, along with an "Exact" button and a "X" button. Below the keypads, a "Give change" section shows "\$1 + 50,000 LBP" and a note: "Change owed \$1.57. \$0.01 is kept as rounding because the smallest note cannot be given." It includes a "USD part" section with a minus button, "\$1", and a plus button. At the bottom right, there is a "Keypad -> Lebanese pounds" section with a numeric keypad for digits 0-9, "000", "0", and a "X" button, and a "Clear" button.
